HOUSE FOR TOTAL RENOVATION WITH PANORAMIC VIEWS OF THE SEA AND MOUNTAINS.

Exclusive.

This house is located in the Taramay area and the house has an absolutely fantastic view. The house needs a total renovation, but the foundation is there and it is a manageable project to get started with.

You can choose to renovate the house as it is, or you can choose to make an extension, so you have even more space.

There are plenty of options here. There is also room to make a pool area if that is what you want.

The house currently has 2 bedrooms and a small annex bedroom with its own entrance. The house also has a smaller living room, which can be used as a bedroom.

The plot has an extra plot, where you can make 2 to 4 garages or a large storage room/workshop.

A house with lots of possibilities. However, it requires a visit to see the many possibilities that are in the house.

So we are ready to show this and at the same time be helpful with suggestions for different renovation options.
