Costa del Sol, Fuengirola

This is a development of semi-detached single-family homes to be developed in the city of Fuengirola, in the heart of the Costa del Sol and a highly demanded area.

Fuengirola, like practically the whole of the Costa del Sol, is a “live” city 365 days a year, thanks in large part to its climate, services and infrastructure.

The high demand, together with the scarcity of available land, has raised housing prices, so new forms of access are required to control costs.

It is proposed as a cooperative development to further optimize the final price of housing, allowing greater customization of the same.

This promotion is intended to be developed on a site with a privileged location and high demand, which makes this promotion a very interesting investment opportunity in the residential field.
