Costa del Sol, Estepona

Welcome to your sun-kissed paradise on Estepona's coveted New Golden Mile, a region renowned for its consistently sunny skies, golden sands, and the crystal-clear waters of southern Spain. Here, you'll experience the best of this Mediterranean lifestyle with just 25 stunning apartments, designed for those who appreciate an exclusive and private community of like-minded neighbours.

An Intimate and Exclusive Community

This residence offers far more than sea views and easy access to the finest beaches of southern Spain. This boutique residential community guarantees you privacy and a peaceful atmosphere, while also allowing you to connect with a select group of neighbours. The thoughtfully designed environment ensures that your living experience feels more like residing in a small, tranquil town rather than an apartment complex. Walking paths replace traditional hallways, connecting the apartments with the feel of single-family homes. This design maximizes outdoor spaces, turning terraces into extensions of the living area.

Designed by Leading Architects

Crafted by the renowned Schiemann Weyers Architects (Rotterdam) and OCWA Architects (Marbella), the development promises both sophistication and top-tier quality. All apartments are strategically positioned to face south, allowing for maximum exposure to Estepona's mild winters and year-round natural light. The architectural design emphasizes indoor-outdoor living, with sliding doors that harmonize the transition from the living rooms to the spacious terraces.

Interiors that Blend Elegance and Functionality

The interiors of the apartments have been meticulously designed to blend elegance with functionality. Available in Standard and Premium options, each apartment comes fully furnished with underfloor heating, Schneider light switches, smart locks, and basic climate automation. These smart features extend to water-saving systems in the bathrooms and kitchens, emphasizing sustainability without compromising on luxury.

For the kitchen, residents can enjoy fully fitted and equipped spaces with Swedish ASKO appliances, including stovetops, ovens, hoods, dishwashers, and refrigerators. The laundry areas are equipped with washing and drying machines from the same high-quality brand. The bathrooms are outfitted with German-made Villeroy & Boch fixtures, ensuring a high standard of comfort and design.

Emphasis on Outdoor Living

In this development, the terrace is more than just an outdoor space—it's an extension of your living room. The generous, greenery-lined terraces are designed for privacy, with wooden Mallorcan blinds providing shade while also allowing air to circulate. Some units feature movable walls that adapt to the evolving needs of families, creating flexible and functional spaces.

Amenities for a Luxurious Lifestyle

Residents here enjoy an array of amenities that cater to a luxurious Mediterranean lifestyle. The complex includes a large pool where you can cool off, relax on a sun lounger with a poolside cocktail, or watch the kids splash around in their own designated children's pool.

For those who prioritize health and wellness, the on-site gym offers a convenient place to stay active, while the Hammam area provides a serene space for relaxation. Other practical features include underground parking with 31 spaces, a storage room, and pre-installation for an electric vehicle charging station. The complex is equipped with an automatic doorman, a security system, and keycard access, ensuring both convenience and peace of mind.

Sustainability and Eco-Conscious Design

This development places a strong emphasis on sustainability. The ecological energy and water systems are designed to reduce your carbon footprint while maintaining the highest standards of comfort and luxury. The functional vegetation throughout the property serves not only a decorative purpose but also helps reduce the sun's heat, making outdoor spaces more enjoyable even during the hottest months.

Flexible Apartment Options

The residence offers a range of apartment types, each designed with unique features to suit different lifestyles. With sizes ranging from 104 to 244 square meters, including terraces and rooftop solariums, there's an option for everyone. The single-level and two-level units all feature private terraces, and some even have rooftop solariums for enjoying Estepona's famous sunshine in privacy.

Optional features for select apartments include a hot tub on the terrace, charging points for electric cars, and photovoltaic panels, particularly beneficial for Type 2 and Type 3 apartments. These optional upgrades allow residents to further personalize their living spaces.

The Mediterranean Lifestyle at Your Doorstep

This development is perfectly situated to take full advantage of all that the Costa del Sol has to offer. Just a 7-minute walk from the beach, you'll wake up to views of the Mediterranean Sea on one side and the majestic Sierra Bermeja mountains on the other. Estepona itself is known for its high-end yet low-rise architecture, ensuring your sea views and the long-term value of your investment are both protected.

Whether you're an avid golfer, equestrian enthusiast, or simply love the beach, the location offers unparalleled access to the best of the region. The nearby coastline boasts famous beaches, vibrant marinas, and world-class golf courses and equestrian clubs.

Conveniently Connected

The development is also ideally located for travel. With two international airports—Malaga and Gibraltar—just 40 minutes away, you're never far from other major destinations. One-hour flights will take you to Madrid, Barcelona, Lisbon, and Casablanca, making both business and leisure travel a breeze.
